

PM352

EMPOWERING EFFICIENCY AND CONNECTIVITY: SIMPLE, LIGHT, YET POWERFUL HANDHELD TERMINAL

More Power, New Features

Experience heightened power, expanded features, and accelerated connectivity with the PM352, the latest innovation from Point Mobile's handheld lineup. Boasting formidable performance driven by a 2.2 GHz octa-core processor and 4 GB RAM / 64 GB flash memory, the PM352 elevates the seamless user experience of Android 13. With a 13 MP camera featuring PDAF (Phase Detection Auto Focus) alongside a new, more powerful 1D/2D scan engine option, productivity is propelled to new heights. With a robust 5,000 mAh battery, you can stay connected all-day long.

Connect with Unprecedented Speed

Harness the power of swift connectivity with Wi-Fi 6E and LTE, ensuring seamless communication and uninterrupted workflow efficiency. Wi-Fi 6E enhances security, preserves battery life, and ensures swift data transmission. Its advanced network capacity empowers businesses to effortlessly manage larger datasets, catalyzing productivity growth. With the LTE option, workers can utilize the device seamlessly throughout the entire supply chain, leading to uninterrupted operations.

Intuitive Design for Effortless Operation

The ergonomic design of the PM352 offers comfortable single-handed operation, minimizing fatigue during extended work periods. Its 4.0 inch display with capacitive touch technology provide readability even in bright daylight, while the strategically placed keypad, which integrates a prominent orange scan button and power key, facilitates easy and accurate data input.

Practical Solution for Businesses of All Sizes

The PM352, with a well-rounded performance and features, emerges as the practical choice for businesses of all sizes seeking to enhance productivity with cost-effective operations. Its powerful processor, advanced scan engine, Wi-Fi 6E support, and Android 13 compatibility elevate the user experience for workers, while its robust design ensures durability and protection in demanding industrial environments. With IP65 water/dust resistance, a multiple drop tests to concrete from 1.5 m (5 ft.), and an operating temperature range of -20°C to 60°C (-4 °F to 140 °F), the PM352 thrives in any harsh industrial setting.

ENTERPRISE SOLUTION

PMDM
Simple yet powerful management solution

PMDM is a mobile device management solution for managing
and monitoring your Point Mobile Android devices.

Centralized management of enterprise devices is vital for better
productivity. You should provide a device configuration that the
workers can concentrate on their work with the device, and also
decrease the device downtime by predicting when to replace
the battery, etc.

EmKit
Enterprise Mobility Kit

The EmKit™ is Point Mobile's value-added service kit engineered
for the pure benefit of system integrators. EmKit supports the
utilization, solution development, and secure management of
your business devices.

PULS – ANDROID UPDATE & SECURITY

PULS is a Point Mobile's lifetime solution, which extends the life
cycle of Android-based Point Mobile enterprise devices to up to
seven years after a product launch.

PULS
Patches, updates & Lifetime Support

Stay up-to-date with the latest security updates for up to 7 year
Conveniently update your devices in the field by FOTA
